

UV PHAZER BLACK

UV LED Leak Detection Light

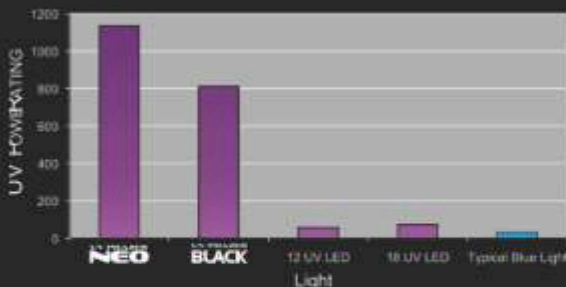

Extreme Performance. Outstanding Value.

The New UV Phazer BLACK Series from UView

UView has raised the UV leak detection bar once again with it's all new cordless UV lights. Incorporating key features from the flagship NEO light, the UV Phazer BLACK series offer many new and unique features and benefits, including:

- A powerful True UV LED fluoresces up to 11X brighter than before, making for fast leak detection.
- An ideal 400nm wavelength fluoresces dyes brighter and provides more contrast than blue light, making leaks easier to identify.
- An adjustable lens focus allows technicians to do a quick scan for larger leaks or concentrate the light beam for hard to find small leaks. Technicians will find leaks faster.
- A compact, aluminum housing allows for access into tight spaces and stands up to years of heavy use.
- The AAA version is cost effective yet powerful, with 2 hours of output.
- The rechargeable version features a Lithium Ion battery, good for 2 hours of output, charge after charge. An all new charging port eliminates the need to remove the battery for charging.
- A smart charger protects the battery from overcharging and extends battery life, for years of trouble free use.

UV PoweRating™ INDEX

Most competitors reference various statistics and figures (watts, lumens, lux, etc.) that do not measure the real world performance of a UV light.

That is why we developed our own performance metric specifically for UV leak detection: the **UV PoweRating™ Index**.

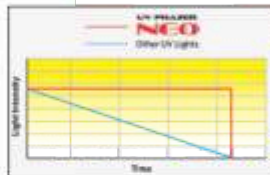

As the lumens index does for visible lighting, the UV PoweRating™ Index quantifies a light's output within the spectrum that most effectively fluoresces UV dyes.

SPECIFICATIONS - What you need to know

Part Number	41305	41305	41305
Description	UV Phazer BLACK (Rechargeable)	UV Phazer BLACK (AAA Batteries)	UV Phazer NEO
Run Time	120 Minutes	120 Minutes	90 Minutes
Battery	Rechargeable Lithium-Ion	4x AAA alkaline	Rechargeable Lithium-Ion
Cable Dimensions (LxWxH)		9.1" x 3.2" x 3.1"	
Gross Weight	0.65 lbs	0.6 lbs	0.61 lbs
CPC	528040300X	528040302S	528040310B

UV PHAZER NEO

The UV Phazer NEO
Still the Ultimate in UV Leak Detection

The UV Phazer NEO is quite simply the best, most effective cordless UV leak detection light available today. The NEO boasts all the great features of the SLACK series, plus:

An even stronger, super high output LED finds the leaks that others miss.
Constant Output Technology: a dedicated electronic clip allows the NEO to provide maximum light output regardless of battery charge state. This means full power all the time.
